This portal provides access to publications, research data, projects and software that may be relevant to the Corona Virus Disease (COVID-19). The OpenAIRE COVID-19 Gateway aggregates COVID-19 related records, links them and provides a single access point for discovery and navigation. We tag content from the OpenAIRE Research Graph (10,000+ data sources) and additional sources. All COVID-19 related research results are linked to people, organizations and projects, providing a contextualized navigation.

Sign the Open Covid Pledge for Research in Education

- We pledge to make our intellectual property openly and freely available to the world to support educators, students and decision-makers, to help educational organisations survive and thrive, and to build a fairer and more resilient education system.
- We pledge - where possible - to **openly license** or **dedicate to the public domain** our intellectual property.

Sign the Open Covid Pledge

Open Covid Pledge Signatories

Note: Signatories will appear once approved by one of our team.

Eight open access and open science policies since the last General Assembly, congratulations to all involved!

Research funders in Hungary, Poland & Slovakia

The major research funder OTKA (The Hungarian Scientific Research Fund) **requires Data Management Plans** (DMPs) from applicants.

National Science Center (NSC, Poland) approved an **OA to publications** policy resulting from research projects funded entirely or in part by NCN resources and **OA to research data policy and mandatory DMPs** - a coherent policy of the NSC as part of a broader **Open Science framework**, aimed at transparency in the dissemination of research findings by researchers funded from public funds.

National Open Science strategy with an Action Plan in Slovakia as a part of **Open Government Partnership initiative**.

Institutional policies in Ethiopia, Lithuania & Serbia

Addis Ababa University, Ethiopia: **a data sharing policy** which has an open data component.

Kaunas University of Technology, Lithuania: **revised institutional OA policy requires DMPs from doctoral students**.

University of Novi Sad, State University of Novi Pazar, Serbia: **Open Science policies**.

Policy work in 16 countries, stay tuned ☺

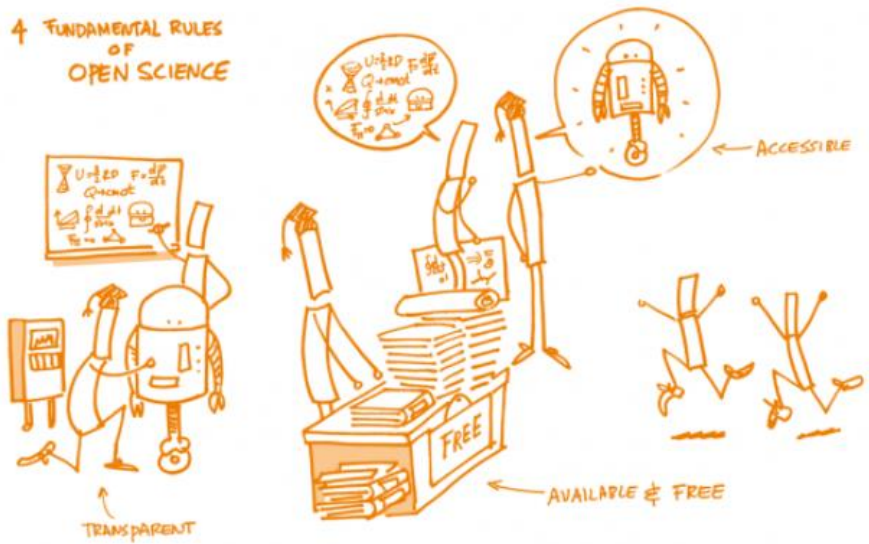
OPEN SCIENCE PRACTICES IN AFRICA

Iryna Kuchma, EIFL Open Access Programme Manager, blogs about a series of meetings and workshops co-organized with EIFL partners in the LIBSENSE Initiative



Posted by Iryna Kuchma, Open Access Programme Manager, July 14, 2020

June was a busy month for the LIBSENSE Initiative - a collaborative space through which libraries and research and education networks (RENs) are advancing open access and open science in Africa.

At a LIBSENSE virtual workshop co-organized by LIBSENSE partners, EIFL, the West and Central African Research and Education Network (WACREN), UbuntuNet Alliance, the Arab States Regional Education Network (ASREN), COAR, AfricaConnect 3, OpenAIRE and GÉANT, we took a snapshot of the current national level activities on open science policies, repositories, community building and coordination in 15 countries: Benin, Burkina Faso, Cameroon, Côte d'Ivoire, Ethiopia, Ghana, Kenya, Malawi, Morocco, Mozambique, Nigeria, South Africa, Tanzania, Tunisia and Uganda (slides).

ПРО ЦЕЙ КУРС

Цей курс розроблений викладачами та співробітниками Національного університету «Києво-Могилянська академія» у співпраці з компанією «CLARIVATE ANALYTICS», ГО «ЕЛІБУКР» та проєктом «FOSTER».

Для кого цей курс?

Курс призначений для молодих дослідників: здобувачів ступеня PhD, викладачів університетів на ранніх етапах їхньої наукової кар'єри, всіх, хто прагне дізнатися більше про наукову комунікацію, її основні складники, новітні тренди та технології, секрети ефективної роботи з інформацією, управління даними дослідження, а також отримати відповідні навички.

Після завершення курсу ви зможете:

- Зрозуміти, як відбувається сучасна наукова комунікація, яким чином відкритий доступ, відкрита наука, відкриті ліцензії, управління даними досліджень впливають на життєвий цикл наукового дослідження, зокрема, у поширенні та збереженні результатів вашого дослідження.
- Застосовувати сучасні практики та пошукові техніки для роботи з науковими джерелами,

Старт **Mar 2, 2020**

Lviv Polytechnic will coordinate OPTIMA project for capacity building in higher education under the Erasmus+ program

10 AUG 2020, 12:16 SCIA DEPARTMENT

The European Commission's Education, Audiovisual and Culture Executive Agency (EACEA) has recently published selection results for the call Capacity Building in the field of Higher Education 2020. According to them, Lviv Polytechnic became one of the three Ukrainian universities to coordinate the capacity building projects.

The main goal of the **"Open Practices, Transparency and Integrity for Modern Academia" (OPTIMA)** project is implementing Open Science ideas and practices in Ukraine to improve the quality of National higher education services. OPTIMA's priorities include engaging disadvantaged academic communities of displaced Ukrainian universities, focusing on climate change as well as inclusivity by means of modern information technologies.

WEBINAR: RESEARCH DATA MANAGEMENT SERVICES

Join this webinar to learn about the core competencies needed to provide research data management services in academic libraries

Event Date: 08 Oct 2020

Online

Academic librarians, faculty members, researchers, university administrators and grant and research staff are invited to attend this webinar on research data management services, co-hosted by EIFL and our partner consortium in Ghana, the Consortium of Academic and Research Libraries in Ghana (CARLIGH).

Research data management (RDM) services is an area of increasing importance to all academic librarians, who play some role in the provision of RDM services, and related outreach and educational efforts. Iryna Kuchma, Manager of the EIFL Open Access Programme, will be the webinar presenter.
